If 'Yes' was selected for point 8, please detail below any historic/welfare reasoning for this <i>(i.e. procedure given to a working animal, medical requirements/past injury, animal adopted with the feature(s))</i> .		Other key points from the record attempt: <i>(i.e. tack alterations made, participants discounted from the total)</i> .	
Bob had his tail amputated after he was run over by a car. This was done on medical advice, due to the sever damage of the tail bones. He is also a rescue (adopted 25/6/2020 from Battersea dogs home). His ears were cropped before he was rescued.		Bob managed to complete this record on the second attempt. He was originally attempting this on tarmac, but we moved into the sports hall so that the landing was softer.
